[King Air C90 Aircraft Maintenance](#)

The Beechcraft King Air family is part of a line of American utility aircraft produced by Beechcraft. The King Air line comprises a number of twin-turboprop models that have been divided into two families. The Model 90 and 100 series developed in the 1960s are known as King Airs, while the later T-tail Model 200 and 300 series were originally marketed as Super King Airs, with the name "Super ...

Quality and reliability are Absolute in our range of pre-owned aircraft and we are extremely particular about the standard of aircraft we are prepared to represent and to introduce to our customers. Our preference is to represent aircraft that include a full history of maintenance, complete flight logs and have no prior incidence of accident related damage. However, in instances where this is ...
