No single factor is more essential for hot tub or pool water quality than your filtration system. A soiled, clogged or worn-out spa filter will fail in its job of trapping contaminants. Old filters also put strain on your spa's pump and other equipment, which can waste energy dollars and reduce water circulation. Clean your filters with every water change and replace them annually to protect ...

For Spa Service Technicians and Home Owners alike, one of the most common Hot Tub problems, is a GFCI Breaker that trips and will not reset. Many people make the mistake of calling their Electrician first and costing them a wasted service call fee. Or they rush out to the Big Box Store and plunk down a hundred bucks for a new GFCI Breaker, only to find out, once installed the new Breaker still ...
